1 AS SOON AS YOUR INSPECTION IS SCHEDULED — CONTACT ME RIGHT AWAY

Contact me with the inspection date and time

Please contact me with the exact date, the arrival window, and the adjuster's name and phone number. If anything changes, please send the updated details. **I cannot move your claim forward until I receive this.**

DATE

TIME

2 WHEN YOUR INSURANCE COMPANY CALLS — IMPORTANT

How to handle the call

Please answer questions honestly, and avoid guessing. If you are unsure how to answer a roofing question, simply say:

> "I'm not certain, but my roofing contractor will be glad to answer that."

You may also wish to ask: **"Do I have replacement cost coverage or actual cash value?"**

If they request your contractor's number:
959-929-8585

WHAT HAPPENS NEXT

3. **Inspection day (typically 10 days after filing) -** I will meet the adjuster at your home and walk them through the damage. You do not need to be present. Your insurer determines what is covered.
4. **The estimate (typically within 10 days after the completion of the adjustment) -** Please contact me with the estimate document as soon as you receive it. Your insurer typically emails it, or may text a link to your phone.
5. **First payment - Please contact me as soon as it arrives.** Your insurer mails the check to you, and your lender may need to endorse it. Once the deposit has cleared, we can get the job on the schedule. I can collect it in person, or you may pay online from a secure link we provide.
6. **Supplement -** We submit a supplement to your insurer for anything that is missed within 24 to 48 hours. We handle this step for you.
7. **Material delivery and start date -** Once your insurer approves the work and your deposit has been received, we will schedule material delivery and confirm your installation date.
8. **Installation and final payment -** We will complete the insurance scope and any approved work. Once you are completely satisfied with the result, we collect the final payment.

Timing windows are suggested planning estimates only - your insurer confirms the actual schedule, and delays may extend these estimates.
